JOB POSITION - BUYER

ASM Technology Singapore Pte Ltd

ASM Pacific Technology Ltd with headquarters in Hong Kong has operations in Shenzhen, China, Singapore and Malaysia. We are a leading supplier of a full line of assembly and packaging equipment and process solutions for the semiconductor, photonics and optoelectronics industries. We manufacture semiconductor assembly equipment and materials (etched and stamped leadframes) used by multinational chip manufacturers, independent IC assembly houses and consumer electronics manufacturers.

We are looking for a team player who is creative and innovative to join us and discover the breadth and depth of our challenges here.

Buyer

You will be responsible for commodities, including subcontracted, mechanical and electrical/electronics parts for the area under your responsibilities. You will work closely with Engineering, Marketing and Production Operations on parts requirements, as well as communicate with both local and overseas suppliers. Your role will also include sourcing, vendor evaluation and selection, price/terms negotiation, cost reduction efforts, vendor management and performance reporting.

Requirements:

- Degree / Diploma with 2 years of relevant experience in a materials procurement function.
- SIPMM qualification would be added advantage.
- Knowledge of SAP & MS Application tools is preferred.

Interested candidates may send in their detailed resume to hr@asmpt.com

2 Yishun Ave 7
