

CAREER OPPORTUNITY

Date Posted: 10 October 2007

Logistics Assistants (Warehouse)

Biomedica Group is a leading manufacturer and distributor of innovative products and solutions in the life and industrial science industries. Our group of companies provides quality products and solutions to healthcare providers, academic and government research institutions, as well as biotechnology and industrial companies to aid them in their clinical research.

We are seeking dynamic and vibrant personnel to join the company as **Logistics Assistants (Warehouse)**.

Requirements:

- Min 'O' Level or Certificate in Logistics Management. SIPMM qualifications would be an added advantage
- 2 years manufacturing warehouse experience preferred
- MS Office literate with data-entry experience
- Class 3 license preferred
- To perform receiving, storage & packing of raw materials & finished products
- To involve in picking & packing functions for both local and export deliveries
- To update inventory records into inventory system
- To assist with delivery as and when required
- Other functional roles as assigned by management

Interested applicants, please send your resume to the under-mentioned not later than 26 October 2007:
